

Hello worldwide designers ! welcome to our collaborative project

You can find the indesign template behind this specifications

Design specifications :

- please please please, follow the character/paragraph style and the grid.
- please please please, correct your typographic layout (space, caesura, punctuation...) current the layout are rough.
- Open source multilanguage font (<https://www.google.com/get/noto/>)
- When you print, no automatic readjustment please (100%)
- Not indesign cropmark, we put discreet cropmark in yellow for fold each page.
- Enjoy and play!

Content specifications :

You don't have specific content restriction, but please respect the size of the resume project page, we will probably re-use your text for the website, exhibition info or leaflet...

- We would like highly encourage the beauty of the plurilinguism. Native language first! We would like have in each text the native language of each participant and a translation in French or English. If you have translation problem, contact us.
- The layouts are specifically designed to host all languages. We use the open source font «Noto» (<https://www.google.com/get/noto/>) download yours and replace it in the style/paragraph.

Shipping specifications :

- If you have the technical and financial resources to print by yourself, thank you very much ! Send us by post (5 Rue Jules Vallès, 75011 Paris, France) your rollprint before the **17th january**, we will bind and make the cover in our studio.
- If you don't have the resources, we could print your book (in the limit of our possibilities). Contact us ! Send us your package (idml + pdf + indd + links + font) before the **17th january**.
